APRIL 2008

Getting The Most Bang For You Buck At The Pumps

1. Only buy or fill up your car or truck in the early morning when the ground temperature is still cold. Remember that all service stations have their storage tanks buried below ground. The colder the ground the more dense the gasoline, when it gets warmer gasoline expands, so buying in the afternoon or in the evening...your gallon is not exactly a gallon. In the petroleum business, the specific gravity and the temperature of the gasoline, diesel and jet fuel, ethanol and other petroleum products plays an important role.

A 1-degree rise in temperature is a big deal for this business. But the service stations do not have temperature compensation at the pumps.

2. When you're filling up do not squeeze the trigger of the nozzle to a fast mode. If you

look you will see that the trigger has three stages: low, middle, and high. In slow mode you should be pumping on low speed, thereby minimizing the vapors that are created while you are pumping. All hoses at the pump have a vapor return. If you are pumping on the fast rate, some other liquid that goes to your tank becomes vapor. Those vapors are being sucked up and back into the underground storage tank so you're getting less worth for your money.

3. One of the most important tips is to fill up when your gas tank is HALF FULL or HALF EMPTY. The reason for this is, the more gas you have in your tank the less air occupying its empty space. Gasoline evaporates faster than you can imagine. Gasoline storage tanks have an internal floating roof. This roof serves as zero clearance between the gas and the atmosphere, so it minimizes the evaporation. Unlike

Interesting Facts:

Hershey's Kisses are called that because the machine that makes them looks like it's kissing the conveyor belt.

No matter its size or thickness, no piece of paper can be folded in half more than 7 times.

Knowledge is growing so fast that ninety per cent of what we will know in fifty years time, will be discovered in those fifty years.

When Will I Get My Stimulus Payment?

The exact date you receive a stimulus check will depend largely on the last two digits of your Social Security number.

More than 130 million stimulus payments will be sent out starting May 2, on a staggered schedule based on the last two digits of taxpayers' Social Security numbers, the Internal Revenue Service said Monday. On jointly filed returns, the mailing schedule will be based on the first Social Security number listed, the IRS said.

For taxpayers who file by April 15 and get their tax refund deposited directly into a bank or other financial account, the IRS will send stimulus payments from May 2 through May 16. For taxpayers who file by April 15 but don't choose direct deposit, the IRS will mail checks from May 16 through July 11.

Procrastinators, take note: For stimulus payments to be part of this delivery schedule, the IRS said tax returns must be "processed" by April 15 -- not "filed." That implies that a later timetable may apply to taxpayers who mail their return on or close to April 15, leaving little time for the return to be processed by that date.

If you expect a tax refund and choose to direct-deposit it into two or three separate accounts, the IRS will send your stimulus check in the mail.

If you owe taxes and are sending a payment to the IRS with your return, you can still have your stimulus payment deposited directly into a bank or other account, the IRS said. Simply fill out the appropriate section on your return related to direct deposit.

New Savings Vehicle

Now you can get stock market type returns without the stock market risks.

Plus, it offers tax deferred interest and tax free income at retirement.

Getting The Most Bang For You Buck At The Pumps

service stations, here where I work, every truck that we load is temperature compensated so that every gallon is actually the exact amount.

4. If there is a gasoline truck pumping into the storage tanks when you stop to buy gas, DO NOT fill up--most likely the gasoline is being stirred up as the gas is being delivered, and you might pick up some of the dirt that normally settles on the bottom. Hope this will help you get the most value for your money.

WHERE TO BUY USA GAS

I thought it might be interesting for you to know which oil companies are the best to buy gas from and which major companies import Middle Eastern oil.

These companies import Middle Eastern oil:

Shell - 205,742,000 /Barrels

Chevron/Texaco - 144,332,000

Exxon /Mobil - 130,082,000

Marathon/Speedway - 117,740,000

Amoco - 62,231,000

Citgo gas is from South America, from a Dictator who hates Americans. If you do the math at \$30/barrel, these imports amount to over \$18 BILLION! (Oil is now \$90 - \$109) a barrel

Here are some large companies that do not import Middle Eastern oil:

Sunoco, Conoco, Sinclair, B P/Phillips, Hess And ARCO

If you go to Sunoco.com, you will get a list of the station locations near you.

All of this information is available from the Department of Energy and each is required to state where they get their oil and how much they are importing.

When Will I Get My Stimulus Payment?

If you do owe taxes, be sure to fill out your return and send payment as usual. That is, don't try deducting your expected stimulus payment from your tax bill. If you don't pay your tax bill by April 15, you likely will owe interest and penalties, said Anthony Burke, an IRS spokesman.

However, if you have a past-due federal or state income tax bill or some other type of past-due federal debt such as student loans or child support, your stimulus payment likely will be reduced by what you owe.

Now I know when I will get it , But....

How Much Do I Get????

The actual amount depends on the information contained on your tax return. Eligible individuals will receive between \$300 and \$600. Those who are eligible

and file a joint return will receive a total of between \$600 and \$1,200. Those with children will get an additional \$300 for each qualifying child. To qualify, a child must be eligible under the Child Tax Credit and have a valid Social Security number.

Here is sample payment...

For a family of 5 who make less the 150,000 AGI, who kids qualify for Child tax credit. You payment will be \$2,100

\$600 X 2 (per parent.)
\$300 X 3 (per child)

Total \$2,100
